How We Got Here

- Excess (but New) Hazardous Material in the Waste Stream
- Extendable Shelf Life Material in the Waste Stream
- OCONUS Customer Compliance Issues

Description

The Joint Environmental Material Management Service (JEMMS) is Supply Chain Logistics for Hazardous Materiel, Designed to Improve Regional Warfighter Readiness by Providing More Responsive, Timely, and Reliable Support at the Lowest Total Cost and Improved Environmental Compliance.

JEMMS MODEL

JEMMS Regional Center

**NEW
&
RE-USE**

Incoming Chemicals from multiple Suppliers DSCR, GSA, etc

Waste through DRMO

Delivery & Pick-up

Data capture and transaction automation

Deployed Blocks

Material Pickup/Triage

POU Delivery

Point of Use Services:

Locker & Waste Mgmt

Web-enabled GCSS Compliant

RHICS: Logistics

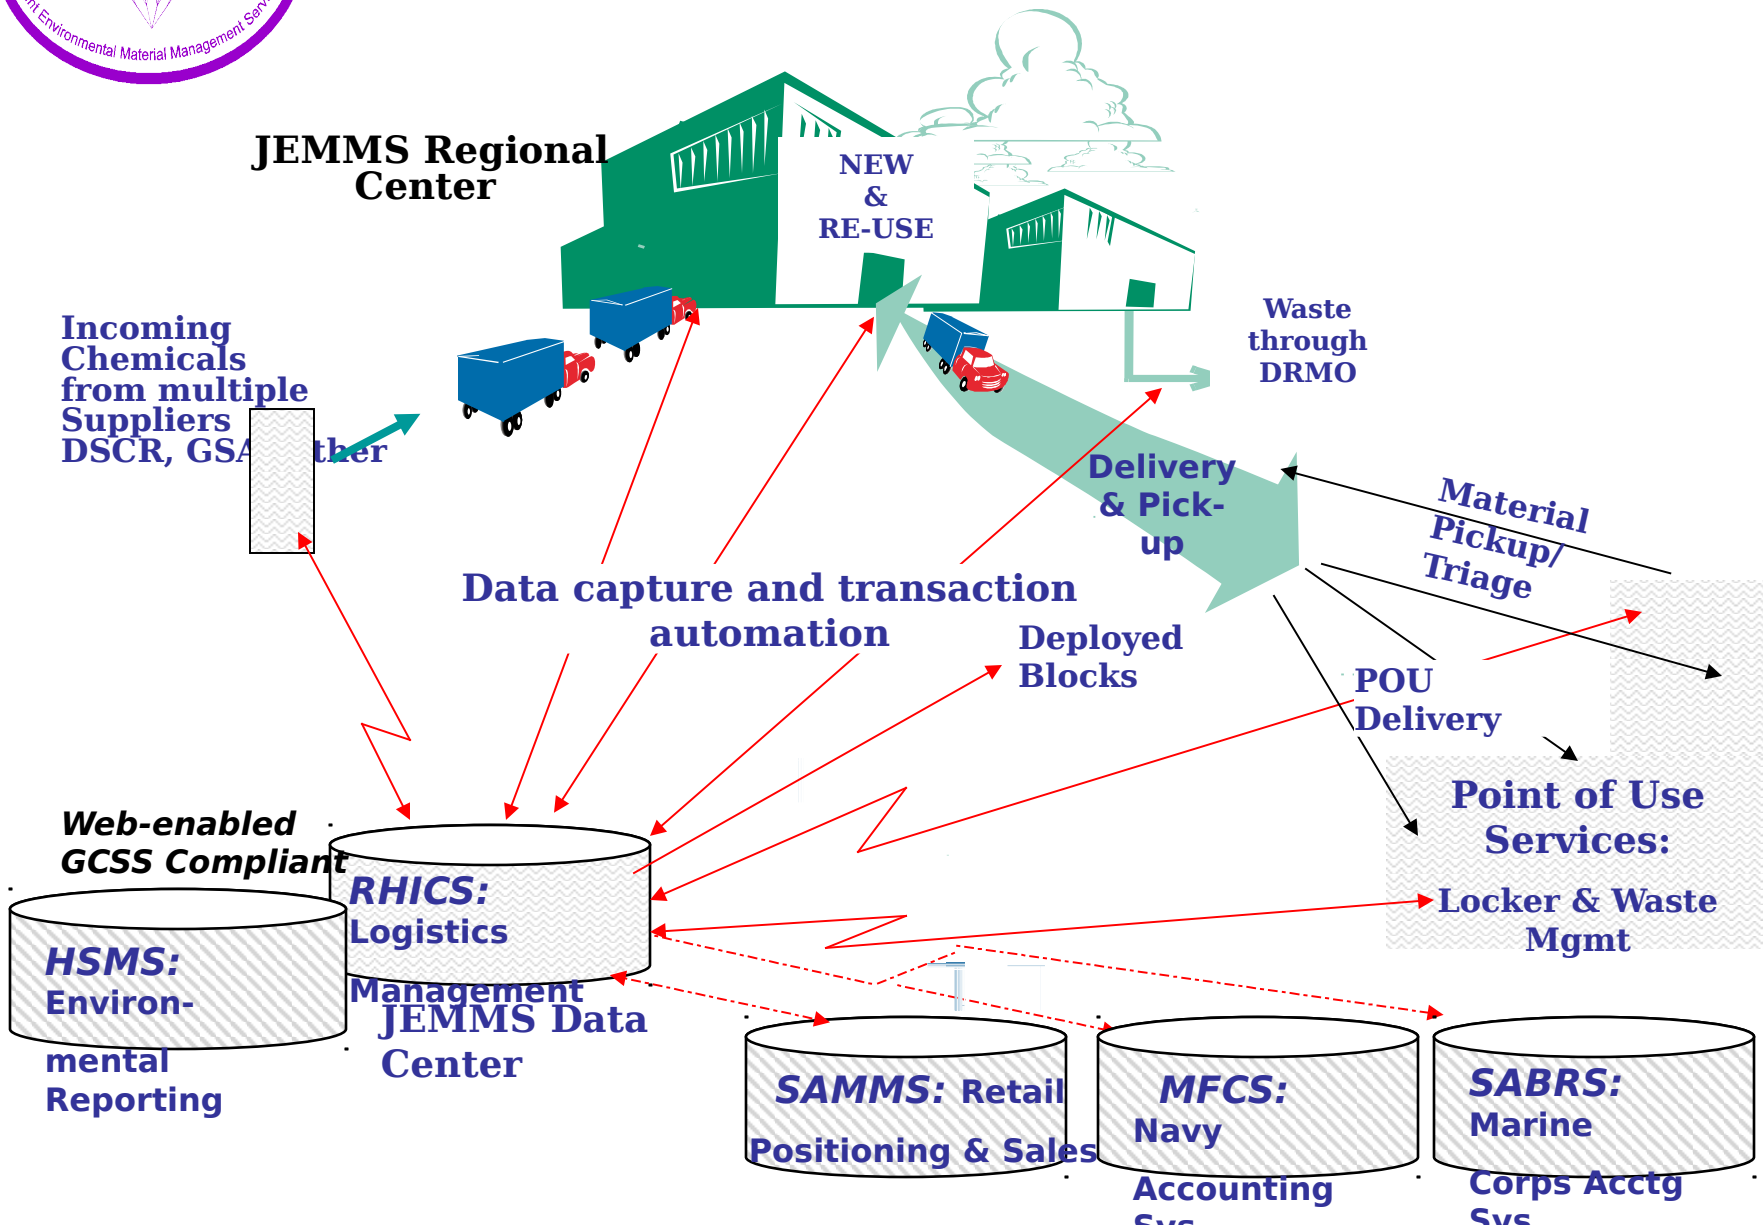

Management JEMMS Data Center

HSMS: Environmental Reporting

SAMMS: Retail Positioning & Sales

MFCS: Navy Accounting Sys

SABRS: Marine Corps Acctg Sys

How Do We Do It?

- DLA Partnership with Naval Supply Systems Command
 - MOA With NAVSUP For Expansion
 - Adapt and Apply RHICS Tool
 - Leverage existing 3PL Contracts
- Identify “Value Added” Opportunities
 - OCONUS: A Retail Challenge – Customers Looking for Continuous Improvement in Logistics Footprint and Environmental Compliance
 - CONUS: Customers Looking for Continuous Improvement in HAZMIN Support
 - JEMMS Brings “Joint Solution” & Efficiencies
 - Multiple Military Customers Within One-Day Service Radius
 - Regional vice Service Specific Demand & Waste

Issues

- Retail vs Wholesale Redistribution Order Rules
 - RDO to a DLA Depot
 - RDO to a Customer's Retail Site
- OCONUS Site Replenishment Logic Table
 - Shelf Life Allowances for Local Customer Shipment
 - Shelf Life Allowance for OCONUS Shipment to JEMMS Site

JEMMS Benefits

- Improves Warfighting Readiness
 - Joint Total Asset Visibility Of Critical Items In Theater/CONUS Region
 - Increased Readiness Through Joint Stock Positioning
 - Returns Military Members To Mission Duties
 - Offers Deployment Support (30-Day Pack-ups)
- Improves Statutory Environmental Compliance
- Produces Savings
- Enables All Services To Use Same Supply Chain and Best Business Practices
- Registered For International Organization for Standardization (ISO) Certification In Environmental Management Systems (14001)

Next Steps

➤ **Navy**

- Navy Transitioning to JEMMS at CONUS FISC sites
- Naval Logistics Integration Working Group Initiative
